Information and communication technologies are taking an increasingly prominent place in our private and working lives. It is now possible to link up computers, telephones, televisions, video recorders and communication satellites. These so called "information highways" give access to the information society. For example, from your computer, your television, your mobile phone, you can get in contact with different people, different service suppliers, etc. all over the world.

Q.2. I am going to name some systems providing you with access to the services of the "information society".
